**One Restart :** Start the first 20 counts of the dance facing the 4th wall (3:00) end facing the front after stepping to the left with the quarter turn and body roll , side clap to the right and left and then begin the dance again with the stomps on the right !

**Styling notes:** When skating forwards (first 5-8 counts of the dance ) for the chorus , fun hop skips work very well! Walls #3 and #6 continue on until the song ends !

When leaning back last set of 8 counts the first 4 counts think "matrix" lean as far back as you feel comfortable have both your hands reach out front for the whole 4 counts of the lean, kind of like riding a motorcycle that's going really fast!

**HAVE FUN!**
