Step Sheet Prepared By: Dick & Nancy Rogers, updated May 2018.

NOTE: This dance can also be done as a NC2S partner dance. Simply modify the last four counts by doing an outside turn with a change of positions. The Lead will then always be in sync with the line dancers while the Follow will be doing standard Follow steps for partner NC2S. As a general note, the slower the music, the bigger the side steps. Conversely, shorten the steps for faster music. Side steps typically skim the floor on inside of foot.
