- 1 Step right forward (4th position)
- & Step left instep close to right heel (3rd position)

9-16 Repeat counts 1-8 above

This will bring you back to your wall of origin and still keeps the dance as a 1-wall dance. For a challenge, try touching on the 8th count and proceed with counts 9-16 dancing opposite. For example, Triple forward LEFT-RIGHT-LEFT twice and execute a Monterey ½ turn left

The purpose of this dance is to offer instructors a BEGINNER dance that helps teach the basic dance steps for line dancing. With this dance, you can start your students on the first 32 counts and add sections to the dance until all the basics have been taught. This will give the student a Basic pattern to begin with and then

add sections as more basic steps are introduced. Incorporate other dances while using this dance, to give the student variety
