PART A

We adjust our clock so that the direction you are facing at the start of Part A is 12:00.

BRUSH-HITCH-STEPS, ½ TURN PIVOT

- 1&2 Brush right foot forward, hitch right knee up, step right foot forward
- 3&4 Brush left foot forward, hitch left knee up, step left foot forward
- 5&6 Brush right foot forward, hitch right knee up, step right foot forward
- 7-8 Touch left toe back, pivot ½ turn left on ball of right foot (weight ends on right foot)

SIDE TOGETHER, CHASSE LEFT, ¼ TURN PIVOT TWICE

- 1-2 Step left to left side, close right beside left
- 3&4 Step left to left side, close right beside left, step left to left side
- 5-6 Step forward right, pivot ¼ turn left
- 7-8 Step forward right, pivot ¼ turn left

Now facing original 12:00

Styling: On the ¼ turns, roll your hips around to the left

"KNEE THANG", KICK-BALL-CHANGE, SLIDE FORWARD

- 1-2 (On balls of both feet) Bring knees together (i.e., heels apart), bring knees apart (i.e., heels together)
- 3& (On balls of both feet) Bring knees together (i.e., heels apart), bring knees apart (i.e., heels together)
- 4 (On balls of both feet) Bring knees to center (i.e., heels center)

Hands: During the knee "thang", put your elbows up and out to the sides, with the palms of both hands facing your ears, a few inches from your head. This is the "hear no evil" position.

- 5-6 Kick right foot forward, step right in place, step left in place
- 7-8 Slide forward with right foot, step left foot slightly apart

"PULL THE ROPE" TWICE

- 1& Stretch arms to right and shift weight to right foot, step left beside right
- 2 Touch right foot to right side pulling arms in to side
- 3&4 Repeat 1&2

Styling: During the "pull the rope" moves, turn your body diagonally to the right so your body is facing 1:30

SYNCOPATED JAZZ BOX, ¼ TURN SAILOR, STOMPS

- 5&6 Cross right over left, step back on left, step right foot to right side
- As you are stepping right on count 6, square up your body toward 12:00 again
- &7 Step left foot behind right, step right to right side with ¼ turn left
 - &8 Stomp left foot forward twice, ending with weight on the left foot

THAT'S THE END OF PART A

MODIFIED PART A

Same as Part A except slight changes to "knee thang" and "pull the rope".

The hands during the "Knee Thang", instead of the "hear no evil" position, do the "chill" motion:

- 1 Hands on back pockets
- 2 Hands on hips

3&4 Hands travel in a "shivery" motion upward in front of your body until they are extended fully up

Bring your hands down on count 5. But don't drop them down to the sides. Let them come down gently in front of your body until they are hanging downward somewhere around count 6.

In the "Pull The Rope" section, there is no longer any hand motion. The footwork changes to move you diagonally backward to the right.

1& Step diagonally backward with the right foot, step left beside right

2 Touch right foot diagonally backward

3&4 Repeat 1&2

You can do a little back body roll on this part if you like. On that last touch of the right foot, you might not want to go too far back because the next step is the syncopated jazz box where the right has to cross over the left. If you make it too far, you'll have a hard time getting it across.

THAT's THE END OF MODIFIED PART A

PART B

We now adjust our clock, so that the direction you are facing at the start of Part B is 12:00.

1 Arms straight down at the sides, fists clenched, back of right fist toward the right and back of left fist forward

2-4 Keeping arms straight and fists clenched, smoothly bring arms up to level with your shoulders over these 3 counts. The right arm goes directly toward the right and the left arm goes directly forward. The arms rise smoothly, not bouncing along with the pelvis.
