## **REPEAT**

## **ENDING**

Last wall (wall 9) commences to the front: the music starts to slow down. Dance to count 30 to the same pace

as the rest of the dance. Add the following 12 steps to finish to the front (these last 12 steps can be slowed down slightly to the end of the dance)

**ROCK OVER, REPLACE, ½ TURN STEP FORWARD, LEFT FORWARD COASTER STEP, RIGHT BACK DIAGONAL, DRAG, LEFT TO LEFT, DRAG, RIGHT BESIDE**

1-3 Rock right over left, replace left in place, ½ right turn and right forward

4-6 (Forward coaster) forward left, right beside left, left back (12:00)

1-3 Step right back at right diagonal, drag left towards right (2 counts)

4-6 Step left to left, drag right towards left, place right beside left

**For this dance only 9 walls are danced. Because of the length of the song, disregard the music that kicks in a little while after the song appears to have finished. This happens when you have finished the dance at wall 9. There is a very long pause so just turn your music off at that point**
