**There's a break in the music in the 3rd wall. Just finish this wall (be aware of the counts because there's no music). After the 3rd wall (the music starts again) and you start the dance with count 33 (kick ball change). So the 4th wall has only 32 counts because you skip the first 32 counts. The 5th wall starts with count 1 again. Count 1 to 32 is always on the refrain of the song**
