**There are two options for the last 8 beats of this dance. The first relatively easy & the second is more challenging. Both move in the same direction at the same time & so can be done side by side on the dance floor without incident. It is up to the individual dancer to choose the option which suits them best. You can do one or both (though probably not at the same time)**

## OPTION 1

- 57 Step left foot across in front of right foot (bending knees)  
58 Step right foot to right side (straightening knees)  
59 Step left foot across in front of right foot (bending knees)  
60 Step right foot to right side (straightening knees)

- 61 Step left foot across in front of right foot (bending knees)  
62 Step right foot to right side (straightening knees)  
63-64 Swinging left leg low in front of body, turn  $\frac{3}{4}$  turn left  
**(Push off with left foot & use the momentum of the swinging leg to turn)**  
64 Step left slightly forward, ready to begin again

## OPTION 2

- 57 Step left across in front of right and turn  $\frac{1}{4}$  turn right while lifting right foot  
58-59 Turn full turn right while stepping right foot forward, step left foot forward while lifting right foot  
60-61 Turn full turn right while stepping right foot forward, step left foot forward while lifting right foot  
62 Turn full turn right while stepping right foot forward

**Hint: Take very small steps on the balls of your feet**

- 63-64 Step left foot forward, standing on left foot turn  $\frac{1}{2}$  turn right, hold right foot in position so at the completion of the  $\frac{1}{2}$  turn you are standing on the left foot with the right foot in front of you, slightly off the floor, i.e. turn to face your right foot, swing right foot in front of body, turn  $\frac{1}{2}$  turn right

**Do not pause between the two  $\frac{1}{2}$  turn turns. It is in effect a complete full turn**

**REPEAT**
