## REPEAT

## TAG

There is a period when the music suddenly goes slow after the 6th repetition. Try and recognize the music instead of counting the walls. You should be facing the original wall

- 1-4 Step out left foot to left diagonal at 10:00, hold for 3 counts (arms: stretch out left arm high with right arm close to chest & pointing to same direction)
- 5-8 Recover weight to right leg, hold for 3 counts (arms: retrieve both hands, bring close to chest)
- 9-16 Do a mirror image towards the opposite back diagonal facing 4:00
- 17-20 Step out right foot to right diagonal at 2:00, hold for 3 counts (arms: stretch out right arm high with left arm close to chest & pointing to same direction)

21-24 Recover weight to left leg, hold for 3 counts (arms: retrieve both hands close to chest)

25-32 Do a mirror image towards the opposite back diagonal facing 7:00

**33-42 spread both arms high in the air & make a full turn left for 10 counts! (last count being a "touch" by the right foot so you can restart the dance, facing the front wall)**

### **ENDING**

**You should end this dance facing 9:00 while executing the jazz box. Do not make the ¼ turn, please just scuff right, towards the front wall instead, at the same time turn your head to face the front, curtsy, right arm pointing down, left arm high & behind you.**
