## **REPEAT**

## **RESTART**

On wall number 3, restart the dance following count 28 (you will be facing the front)

Due to the restart at wall 3 and the short length of the tune, this is technically a 3 wall dance

## **FINALE**

Following the final wall number 5 (you will know this is final when she repeats the phrase "end of the world" twice and you have a dramatic pause in the music), do the following (you will be facing back wall):

- 1-4 Cross right over left (1), unwind a full turn (2-4)  
5-6 Lunge forward on right, recover back on left

Begin the dance again and complete the first 14 counts of the dance (3:00). Finish the dance off by unwinding  $\frac{3}{4}$  right to the front wall and raise your hands in the air with the music crescendo
