TAG

At the end of the third wall add the following 6 ½ beats

ROCK, HOLD, ROCK BACK, STEP TOGETHER

1-2-3& Rock/step forward on left, hold for one beat, rock back on right, step left back together with right on the & count

ROCK, HOLD, ROCK BACK, STEP TOGETHER

4-5-6& Rock/step forward on right, hold for one beat, rock back on left, step right back together with left on the & count (the & 4 beats should feel like a ball step)

The music slows towards the end; you will be dancing wall 7 during beats 19-24. Slow down with the music and you will finish facing the front. Don't syncopate the step forward on right. Instead replace with a large step forward on right and drag the left toe up behind the right foot

Special thanks to Joy and Coral who dance with me on Tuesday evenings for their honest comments, creative input and for letting me "test drive" this one on them.
