		acing 12 o'clock.			
1,2,3,4	•	•	& Back on L, Sweep Around & Back on R, S me direction by rocking forward on R.	Step Back on L	

CODDED KURB

Blue Skv

Restart: On the 4th wall, dance to count 36 (you will be facing the 3 o'clock wall) then restart the dance by making a ¼ turn to the back wall, rocking forward on right foot as the first step of the new wall.

Ending Complete the full turn triple, then –Step L behind R, R to side, large step L slowly dragging R towards L. (Count - 1 & 2)

NOTE: The beat is lost just before the end, keep dancing, you need to be in time to dance the last strong 8 beats of the song, at which time you will be starting a new wall to the front and doing the first 8 beats of the

dance. But if you find the timing at the end too hard till you are familiar with the music, don't give up on an otherwise very easy dance – you have my permission to fake it – or finish early – or whatever!!
