

Don't Wait

COPPER **KNOB**
BY STEPHENETS

Count: 96

Wand: 1

Ebene: High Intermediate

Choreograf/in: Johanna Barnes (USA) - April 2014

Musik: Don't Wait - Mapei

Additional: Dance begins after 32 beats of music, including a 16-count optional danced intro.**

Interpretation: To keep the cue sheet readable, counts are simplified. Please listen to the track, and feel where the rushed and elongated counts occur. It'll be easy enough to feel the dance once you are familiar with the song! The phrasing feels very much in three parts, so I have including sections for reference while learning the sequence. It's not nearly as challenging as this may read!

EXTRA NOTES (Section B, 41~48):

This movement can be accomplished with taps and lifting your feet, or staying grounded and swiveling with pressure into the balls of your feet. A slight sitting action will facilitate a deeper open swivel movement, just feel it out! It's all about the bending and straightening of your knees while swiveling, and pulsing the heel into the floor.
