## CONTRA NOTES: □

Dancers should start facing the opposite direction of the dancer next to them.

<  
>  
(12:00) < (6:00)  
>  
<

Each line will split into two lines after the first count of the dance with the jump. If you have more than one line on the floor, make sure there is plenty of space between your starting lines (at least a few feet).

<  
>  
(12:00) < (6:00)  
>

As your lines cross during box section, be aware of the people in your contra line and weave thru a window

(the space between the other dancers).

For best results, teach the entire dance with all students facing the same wall and practice it a few times before switching to contra.

Please, feel free to share videos of your best results or your funniest moments! AND HAVE FUN!
