"Forty Shades of Green" is a song about Ireland, written and first performed by Johnny Cash while on a trip to Ireland in 1959. Cash once recalled performing the song in Ireland and being told by an old man afterwards that it must have been an old Irish folk tune!

"Forty Shades of Green" has since been recorded by many other artists and although some versions are unsuitable to dance to because of the phrasing the version by his daughter Rosanne Cash is an excellent and lasting tribute to her father.
