Choreographer's note:

This and all my seated line dances are designed to allow people with limited mobility – whether temporary or permanent – to dance. They can be done while seated using your legs, arms or your legs & arms.

Alternatively, the dances can be done while standing and holding the back of a chair, a walker or a cane. Of course, it's also possible to do these dances as normal line dances without turning – though turning options are easy to create. The objective of my seated line dances is to provide options for everyone, no matter their physical ability, to be able to move to music in a set pattern, exercising both body and brain while doing a fun activity. Feel free to adapt any "steps" to suit you and just keep moving and have fun.

All of my seated line dances can be found on the "Seated Line Dances" playlist on my YouTube Channel here: https://www.youtube.com/playlist?list=PLMKDRX7zYhSXUHfbfOoFo0bX_OnBqD40v and on this Copperknob list: <https://www.copperknob.co.uk/lists/23969/lauras-seated-line-dances>
