Count In: 48 counts from beginning of track

Intended to be done as a circle mixer dance. Partners will create inner and outer circles facing each other (so inner circle faces out, outer circle faces in). Partners start out directly across from one another. When doing the grapevines, follow the circular line of dance, not squared to a wall. You'll switch partners in the last 4 counts as you walk in going slightly to your left to the person who was next to your previous partner.

Your partner will pass by your right shoulder, you pass behind each other's backs, and then walk backwards (left shoulders passing) into your original spot. You face the same direction the entire time. Imagine you're drawing a teardrop shape around your partner.
