

# Cherry Sorbet / Sorbet Sway

**COPPER** KNOB  
BY STEPSHEETS

Count: 56

Wall: 2

Level: High Intermediate

Choreographer: Noonie - December 2024

Music: CHERRY SORBET (feat. Sevyn Streeter) - DIXSON

I believe soul line dances are usually learned by watching people dance it and memorizing the steps and how they fit the music, making strong muscle memories. When the music changes, the choreographer has presented a new "PART", hence Part 1, Part 2, Part 3 and that is why these three parts are also repeated again after all three have been danced, because those corresponding music themes reappear. Some dancers look up the lyrics and learn the parts that go with the lyrics. This dance, fortunately, also lends itself to being counted and written into a step sheet for other learning preferences. The counts are based on the rhythm of the music. The dance starts after Sevyn Streeter says "5...4...3"
