NOTE

The 2nd time through the dance on counts 25-32, you will have to rush the timing of the cross unwind. This is where the singer slows down and you won't have the full counts to turn

RESTART

3rd time through the dance there is a re-start after count 44 (side rock cross, side rock cross, back side turning ½ right, step left forward). This should put you on the 3:00 wall

TAG

4th time through the dance, you will dance through count 56 (1 set of the ronde jambe). Then add a slow ½ pivot turn

1-4 Step right forward, hold, turn ½ left and step on left foot, hold

Restart when the beat kicks in

ENDING

The last time through the dance you will be facing 12:00. You will have to take a little extra time, or hold when you unwind on the cross unwind turn (counts 29-32) as the singer slows down again. Start the side rocks when the beat kicks in again. Bring both arms up and out on the drum roll ending

I think this may also work with the original version by Engelbert Humperdinck version of the song
