For styling, these 8 counts can be done bending forward at the waist. You are now in the center track facing
the same direction you began Part C in

Leading with right foot begin a $1 \frac{1}{4}$ walking turn right in place for 8 counts, end facing opposite your original B start wall. (or simply put: with the music, complete as many right turns in place as you care to - or can execute successfully - meaning no one gets hurt ;) end with weight left facing your 2nd B wall.
You will dance Part B 4 more times from the 2nd wall. To add styling after the 4th B pattern as the song ends, touch palms as if beginning dance again raising them above your head and out to the sides in a large arc while pulsing forward and back for 8 counts

PART C (EZ-FIED OPTION)
1-64
Repeat the toe strut pattern from counts 1-16 of part c, for 62 counts. On the last set shorten steps to end in the center of the track. Pivot $1 / 4$ right to face the 2 nd wall for Part B with weight left \& ready to go! (now turned $1 / 2$ right from where you originally started the first 6 B patterns)
