(Your body should be bent and leaning toward the R after swinging that R shoulder around)  
7-8 Raise your body back up, Step L foot beside of R

**RESTART: You will restart the dance 2 times.**

**1st Time:** After you do the first 32 counts the first time, Restart the dance over (You will be facing your back wall after counts 1-32 that's the 1st restart)(\*Your actually facing 3 o'clock but when you step out right make ¼ turn right to make you face the back wall!)

**2nd Time:** This restart comes after you start the dance the 6th time. You will dance the dance; counts 1-48 on the 6th time you start the dance-(counting restart 1) Then after your Toe, Heel, Toe, Heel ½ turn you will restart with your sailor to the left-(count 9-16) Dance the dance all the way through till the end of the music after you start with your sailor to the left, (Sailor step-right, left, right.)

**TAG: Very Easy! This happens to your sidewalls and only 2 times. It's after count 64 and all you are going to do is roll your body in a circle slowly starting to the R first and rolling around to the left and centering back up on count 8(ending with weight on L). Then you are ready to sway to the Right. (beginning of dance)**

**1st Tag:** You do it to the R sidewall first-(after you start the dance 2 times)

**2nd Tag:** You do it to the L sidewall second-(after you start the dance 5 times)

**\*The wall changes are different because of the first restart. You do the front wall then the back and then the Right wall, this is where you do the Tag the first time. But you do face all 4 walls through the dance.**
