Every time the chorus is sung you will hear the word "whoah!" sung 4 times. On each of them you do the same arm movement but at a different height

- 1st Whoah! Both arms straight down and slightly out at the sides
- 2nd Whoah! Both arms straight out at shoulder level
- 3rd Whoah! Both arms straight out just a bit higher
- 4th Whoah! Both arms straight up

Please be careful that you don't hit the person next to you.
