REPEAT

If you make a full turn on the 1st 8 counts of the dance for the initial dance pattern only, the home wall will always be at the 12:00 wall. If you only make $\frac{3}{4}$ turn on the initial 1st 8 counts of the dance, you either have to start the dance on the 9:00 wall or the dance pattern will always end up on the 3:00 wall being the home wall instead of the 12:00 wall.
