## **RESTART**

When dancing wall 6 only dance up as far as 20 counts (left lock step-section 3), you will then be facing the back wall, then just restart dance from the beginning

## **ENDING**

When the song is ending you will just have enough time to start wall 10 (you will be facing the left hand side wall at this point). Dance counts 1-3 as normal but then instead of stepping right to right side on count 4 make a quarter turn right stepping right forward (to face front) and at the same time splay hands up in the air and shout "whooooo" as this is what Lonestar also shout at this point
