#### **Combo Linedance**

is a conditioning workout with linedance steps to short tracks that floats into each other so you start the next routine same moment music starts if the stepsheet says nothing else. That means sometimes first step can be difficult to fit in but that is okay, just continue. It is one wall routines except in 3 routines where it is two walls.

Combo can be done in different levels, newcomers for learning basic steps, improvers with different combinations or intermediate with tougher routines, This one that I have choreographed is at improver level. Most basic steps are included, I left some out like sailorstep and nightclub2step and waltz.

Combo Linedance means it combination/mix ...

and the creator of the new concept Combo Linedance is Louise Elfvengren Olatoye from Stockholm Sweden. Crazy Cats Linedance Studio [www.crazycat.se](http://www.crazycat.se) email: [louise@crazycat.nu](mailto:louise@crazycat.nu)

The music from this routine is available at CD and stepsheet can be taken out from homepage.

Videos will be made soon and published on youtube.com
