**TIMING INFO!** To make the step sheet easy to read I've written it with a normal 1-2-3-4&5 counting. However, you should really read all the & counts as 'a' counts due to the timing of the beats in this song by Rihanna! Timing explanation: if you e.g. had a '4&a5' counting you can see that the & count comes before the 'a' count. This means that all 'a' count steps should be executed after the normal & count. In other words are you doing an 'a' count step a little delayed compared to a normal '&' count and you execute it very close to the count that comes next. In the above example it would be '4...a5'... However, when you dance an 'a' count it feels very quick when it is in fact delayed... I hope this makes a little bit of sense. If not, I refer to any Youtube video with me in it...
