I believe soul line dances are usually learned by watching people dance it and memorizing the steps and how they fit the music, making strong muscle memories. This dance, fortunately, also lends itself to being counted and written into a step sheet for other learning preferences. The counts are based on the rhythm of the music.

PART A

TRIPLE STEPS, ROCK, RECOVER (TIC) BEGIN AT 12:00

- 1&2 3&4 Right forward triple step, rock upon left, recover on right (tic* step optional)
5&6 7&8 Back on left triple step, rock back on right, recover on left (front tic step optional)

To do a tic step, tap the opposite foot from what you are standing on quickly behind the standing foot. Instead of tapping you can also just raise it quickly. In the above example, 1&2 are the forward triple step, and 3& are the left rock and the tic step.
