REPEAT

TAG #1

At the end of the second wall instead of doing "step back right, step forward left", finish the last two beats of with a right Charleston (end with weight on right) then

1-16 Repeat the last 16 beats of the dance (finishing with the step back on right, forward on left) **Start the dance from the beginning**

TAG #2

On the third wall after the first 16 beats the music has a slight (1 beat) stop in it. On the 16th beat you will be doing the left pivot. From here you will go straight into the quick weave (after paddle turns) to the right. This will cause you to chop off the hip bumps and the step backs and coaster steps and the paddle turns. Finish this wall as with the second wall.
