**TAG**

At the start of the 9th wall (i.e. 3rd time to the original front wall) the music does a funny, fade-y-thing, so to get through it successfully dance the 1st 7 counts as usual then (when you have stepped to the right) put your right hand on the shoulder of the person to your right side & look at them (don't worry, they won't be looking at you. They're looking to the right as well!) This is when the music fades out completely for a few seconds.

When it comes back in, count 3 then:

1-3 Cross the ball of your left foot behind right, unwind 1 full turn to the left, rock/step right to side

Then go back to the very start of the dance (count #1) & continue all the way to the end
