## REPEAT

## RESTART

Do the entire dance once. Start the next repetition and when you finish the quick sway at the end of the third 8, the chorus will begin. Start over and complete another full repetition (that's 32, 24, 32). Repeat (32, 24, 32), then hold for 4 counts (feel free to add arm styling here). Now you have one set left: another 32, 24, begin the final 32 and you'll get halfway through when the song ends, so finish with the press and turn (last 2 counts of second set of 8) turning ¼ right (instead of ½) to face the front (12:00). Then hold, raising arms slowly as the music fades
