5 LF Tap  
6 LF turning to the left  
7 RF turning to the left  
8 LF turning to the left, completing one full turn

## Facing new Wall REPEAT

## REMARKS

### Tags

At the end of the 3rd wall, a RF Cuban Break, 1-2.

At the beginning of wall 5, RF double Cuban Break 1-2- 1-2.

For some dancers, it might be difficult to skip/hop throughout the dance. You can therefore change the skips/hops into steps: 1, 2, 3.

The complex turns throughout the dance might be difficult for beginners, so the dancers can dance comfortably as one wall, but you still have to use the two tags. For the experienced dancer, pick up the exact lyrics at the beginning of the music, at the end of the fourth phrase, just before the lyrics – count 1, 2 to the speed of the music and start right on the lyrics.
