**Edit: On the 7th wall, where the music drops out, the last musical phrase is curtailed to 7 counts instead of 8 (Thank you very much, Band Perry!)**

**So we took advantage of it and made an awesome edit: When you reach step 31, make a one-count stomp with both feet, using the previous  $1\frac{1}{2}$  turn to leap into it. Make it loud! Then go directly to the top of the dance.**
