##Step cross unwind ,this only occurs on wall 1 &3

&1,2,3,4 Step R) TO R) side and cross L) over R) ,unwind 180 deg to face back wall (6 o clock) repeat dance from the start

For Styling and fun.....yell out "what the hell did we do" whilst throwing both hands in the air towards the end of the third pattern of the dance. It occurs during the 2nd walks and hitches. Only happens once during the dance, as you become familiar with the music, this will become easy to recognize .

\*\* After 7 x patterns of the dance ,you will be facing wall front (wall 1) there is an instrumental part then the lyrics stop with just a few guitar sounds and some talking.....we dance (keeping the pace and the rhythm) to the end .Dance 60 cts, left ball change to front and restart dance.

Apologies for the music quality on video ,will replace when better copy available.However the steps are clearly shown.

Enjoy !!
