Long tag after walls 2 and 6 (16 counts):

1-2            Rock back on L, recover to R  
3-4            step fwd on L, quarter pivot R stepping on R (counts 1-4 identical to beginning of dance)  
5              cross L in front of R (prep for turn)  
6-7            turn ¼ L stepping back on R; turn ½ L stepping fwd on L  
8              step fwd on R, starting ½ pivot turn to L

**(counts 9-16 identical to 3rd sequence of dance)**

- 9-10 complete pivot turn stepping fwd on L; walk fwd R  
11-12 rock fwd on L, recover to R  
13-14 step L diagonally back bending knees (5); scoot R back and touch next to L, keeping weight on L, straightening knees and squaring up (6)  
15-16 step R diagonally back bending knees (7); scoot L back and touch next to R, keeping weight on R, straightening knees and squaring up (8)

**Short tag after walls 4 and 8 (8 counts): repeat last 8 counts of dance**

**Mini-tag after wall 9 (4 counts):**

- 1-2 touch L toe back (1); reverse pivot to L stepping on L (2)  
3-4 step fwd on R (3); swivel ½ turn to L keeping weight on R (4)

**Note on sequence: the track is organized mostly in “twos”: she sings two verses, two choruses, two verses, two choruses, bridge, two choruses, and a “wind down.” The long tag always comes after a set of two verses; the short tag comes after a set of two choruses, but only the first two times that occurs; the mini tag comes immediately after the bridge. There are no more tags after the mini-tag. As you begin wall 12, it will sound as if there is another tag but just dance through: this is the “wind-down” in which she basically repeats the last line of the chorus for the final 32 counts of the track.**

**Ending: you will have just turned to the front as the track ends. Strike a pose!**

**Enjoy!**
