\＃8 count intro，start on vocals， 2 restarts
Choreographers Note：There are 2 restarts in the dance，after count 24，on walls $1 \& 3$ ．Therefore the dance has a slightly different route around the room for the first 4 walls，so effectively it becomes a 2 wall dance to start with from front to back and then changes to the side walls．So you start at 12：00，then 6：00，followed by 9：00，and finally 3：00 to start with，before going in a normal sequence clockwise around the room．Don＇t worry，it＇s easier than it sounds．
