## REPEAT

## ENDING

You will be facing the front wall at the end and will have danced counts 1-20. When the music slows down after the words "each of us...", your weight will be on your left. Take your time and listen to the music and you do the following:

On the words "if we trust": step right to right side on the word "trust" as you slowly raise your right arm from your side upwards

On the words "in just one dream" turn ¼ turn right as you step your left to left side and raise left arm (you will

be facing 3:00 wall); count to approximately 5 counts (you will have to listen to the music as this will be purely instrumental) and step right to right side (your body is still facing the 3:00 wall but you will be looking to the 6:00 or back wall) and raise right arm

On the words "in just one dream" pivot and turn on ball of right to make a  $\frac{1}{2}$  turn right as you step left to left side (your body is to the 9:00 wall but you will be looking to the front or 12:00 wall) and raise your right arm, weight is back on left
