35	Slide right forward and left backwards
36	Slide left forward and right backwards
37	Jump both feet together with 1/4 turn to right

## 38 Hold (weight placed on left)

## **REPEAT**

Oil-slick steps are best done on slippery-floors as the feet are not intended to be raised off the floor during the sliding. If you cannot slide easily try these steps:

33	Hitch left and scooting forward on right
&	Set left down and transfer weight
34	Hitch right and scooting backward on left
&	Set right down and transfer weight
35	Hitch left and scooting forward on right
&	Set left down and transfer weight
36	Hitch right and scooting backward on left
