## **REPEAT**

## **RESTART**

Dance only the first 32 counts on the 3rd wall (where you start facing the front) and then restarting from count 1 again. To keep the dance as 2 walls it is necessary to make ¼ turn left on count 31 as you slide the left foot beside the right so you are facing front to restart the dance. The whole 32 counts is a musical break so it should be easy to hear when to restart

## **FINISH**

If you leave this off, the very last 16 counts are off phrase. When you are on the 4th wall after the restart (you will be starting this wall facing the back), hold for counts 63,&64 with weight on left foot and then leave off counts 65-68 to restart the dance facing the front. There are then 16 more counts and you finish with a left foot stomp (or a cha-cha 15 &,16) facing the front wall
