25\＆26 Shuffle forward right，left，right

## STOMP，SWIVEL LEFT，SWIVEL CENTER：

27 Stomp left foot next to right with weight evenly distributed on both feet
28

> Swivel both heels left

29 Swivel both heels back to center

## REPEAT

Because this is an older dance，variations are plentiful，and the dance is done differently in different parts of the world．
Add $1 / 2$ turns to the left to counts 21 and 22 to get the version most often seen on the west coast：
21 Step forward on left turning $1 / 2$ turn right
22 Step back on right turning $1 / 2$ turn right
There is a 32 count version that adds a step before count 1 like this：
STEP LEFT，KICK RIGHT
1 Step forward on left

To make it 32 counts, slow down all of those half turns at count 18 (now called count 19 because we added an extra step before count 1).
CROSS, BACK LEFT, $1 / 2$ TURN
$19 \quad$ Cross right over left
20 Step back on left
21 Turn right $1 / 2$
STEP, PIVOT, STEP, PIVOT
22 Step forward on left
23
24 Step forward on left
25
Pivot $1 / 2$
When done this way, the heel swivels in the second-to-last count are usually done to the right instead of to the left.
There is also a 25-count version where counts 14-17 are executed in two counts instead of four as:
14\& Touch right heel forward, pivot $1 / 4$ turn left
15\& Touch right heel forward, pivot $1 / 4$ turn left
Then replace counts 19-26 with
17 Step to the left side with your left
18 Cross your right foot behind your left
19 Pivot on the left foot making a $1 / 4$ turn to the right
20 Step to your right side with the right foot
21 Cross your left foot in front of your right
22 Step to the side with the right
Again, heel swivels are to the right with this version.
To turn that into a 24-count version, some dancers will combine the first two counts as follows:
\& Kick right foot forward (or scuff right foot forward)
1 Step back on right foot
