## REPEAT

Variations ("A" can be done by itself, or with "B" or "C"):

A) the sets of four shuffles (steps 17-24, 33-40, and 57-64) are done as cross with turn, step, return. For the shuffles starting with the left:

Step with left foot crossing over right, turning 3 turn to right

Step in place with right (which will have been slightly shifted to right)

Step with left foot back to original position(that is a 3 turn left) facing forward

If you use this variation for steps 57-64, do not turn ¼ turn right on step 57 (you will already have turned for the hip bumps). For the shuffles starting with the left:

Step with right foot crossing over left, turning 3 turn to left

Step in place with left (which will have been slightly shifted to left)

Step with right foot back to original position(that is a 3 turn right) facing forward

B) during the first 16 steps, do a 2 turn to the right and walk forward right-left-right, stomp right where you

would normally walk backwards. That is:

- 1-4 Walk forward with left foot, right, left, stomp right
- 5-8 Turn ½ turn to the right and walk starting with right foot, left, right, stomp left
- 9-12 Walk forward with left foot, right, left, stomp right
- 13-16 Turn ½ turn to the right and walk starting with right foot, left, right, stomp left

**This variation takes up a little more real-estate, but returns you to the same position.**

**C) during the first 16 steps, do a ½ turn and step- step-step-stomp during steps 5-12. That is:**

- 1-4 Walk forward with left foot, right, left, stomp right
- 5-8 Turn ½ turn to the right and walk starting with right foot, left, right, stomp left
- 9-12 Turn ½ turn to the left and walk starting with left foot, right, left, stomp right
- 13-16 Walk backwards starting with right foot, left, right, stomp left

**This variation takes up the same real-estate as the original (and returns you to the same position), but adds some turns.**
