Straighten back up returning your foot down to the ground to lightly touch before repeating the same movement for count 8

**Styling Option:** On counts 3-6 you can get down and quite funky with this move by bending slightly at the knees and waist to have a more funky feel. On counts 7-8 you can angle your body and shoulders to the left diagonal when bring your knee up.

**Styling Option:** On counts 3&4& bend down and give it a little bounce to make it more funky; on counts &7 you can do a body roll up from the hips

**Tag: Insert the following steps at the end of walls 3 (facing 9 o'clock) and 6 (facing 6 o'clock)**  
**(1) Point R to right side; (&) Replace R beside L; (2) Kick L foot forward; (&) Replace L beside R with feet slightly apart; (3) Step R slightly out to right side; (&) Step L foot beside R; (4) Step R to right side**  
**For styling on counts (&4) your feet move first, then the hips and then the upper body last to give the effect of a side body roll starting with your feet. You are ready to begin again with your R foot.**
