1-3 Step L across R and swivel back towards L
4-6 Step R across L and swivel back towards R

7-9 Step L across R and swivel back towards L
10-12 Step R across L and full pivot [12:00] ** See NOTE below.

ENDING. Due to the 1/2 turn in the TAG, the clock directions shown in Section 1 to 8 above will be 180 degrees opposite for Wall 4, 5, and 6. The dancer will be facing the front at the end of the dance. Either pose, or alternatively, do a full turn at this point and then pose.

****NOTE** To make the dance easier, both the turning or spins at the end of the TAG and at the end of the

dance can be skipped. (Both have to be skipped so as to face the front when the dance finishes.) For those who like more challenge, do this for Section 5. Instead of closing feet (Count2-3), put that moving foot right behind and rise up. Keep the rise and fall or the tilting motion for all the balancing steps. Have fun.
