音樂: Wonderful (Radio Edit) - Aretha Franklin

I think soul line dances are usually learned by watching people dance it and memorizing the steps and how they fit the music. This dance, fortunately, also lends itself to being counted and written into a step sheet. Bounce with the music, relax and enjoy! Aretha's lyrics are shown in italics and matched with the music below. The counts are based on the rhythm of the music. Pay attention to which patterns go with which melodies/lyrics in the song, makes it easier and more enjoyable to dance.

When piano music starts count in 5 6 7 8 to start the dance.
