31&32        Kick the right foot forward, step the right foot beside the left foot, touch the left toe slightly back

## REPEAT

The first song has a quick intro. I would start after the first 4 beats of the song

The second song is intended more for special occasions because of the length of time for the song is over 5 min. Long. You can use it whenever you want, if the local dance facility is more friendly towards different genres of music more often.
