### **REPEAT**

### **TAG**

**During the 3rd repetition of dance (facing original 12:00) dance counts 1-32, eliminate 33-64 and do the following 8 counts:**

- 1-2-3&4 Rock forward on right, rock back on left, shuffle back right-left-right
- 5-6-7&8 Rock back on to left, rock forward on right, shuffle forward left-right-left

**During the 5th repetition of dance (facing original 6:00) dance counts 1-32, eliminate 33-64 and add these 4 counts which are the same as the first 4 counts of the dance**

- 1-4 Rock right forward, recover on left, rock right to right side, recover on left; then continue with the dance from the beginning with the rock right forward, recover. In other words, you have started the dance over and just added an extra rock right forward, recover, rock right side, recover

**When the music slows down towards the end of the dance which is at the beginning of the 7th repetition of the dance (you will be at the front wall), you will start the dance over by doing the first 4 counts of the dance, then eliminate the side shuffle to the right and take a long step to the right side with the right foot, slowly dragging the left foot towards the right without changing weight and hold until the music starts over and you hear the beat to continue the dance with set 2 which is the left rock forward, recover, rock left side (hold is about 8.5 seconds long)**
