5&6 Right step back, left step next to right, right step forward
7 Left step small step forward on ball
&8 Replace weight on right, left step next to right

REPEAT

TAG

You will add 8 counts to the dance. On the 7th wall the music will quiet down. You will be facing the back wall. Finish the last set of 8 counts of the dance and you will now be facing the front wall. Add these 8 counts: Slowly step forward on right as you start raising both arms with (palms up) up over your head and looking up. Start turning to left on balls of both feet you should be about ¼ turn left by count 3, facing back wall ¼ turn by count 4. Turn palms down and start coming down (like a puppet) move arms & head down quick and stop count 5, down and stop count 6, down and stop count 7, hold 8 (be sure to count these moves). The music will pick back up. Start dance over for one more time all the way through.

FINISH

After counts 1-16, I like to finish with:

1&2 Right toe touch side, together, right step forward

On count 2: you bend head down (with both arms up waist high palms down) move arms out to side like you're safe at home base.
