Personal note: My 15 year old daughter left a post-it on my PC saying "Mum you need to write a dance to this track" I fell in love with the music, you can almost feel the song 'breathing'. Don't rush the dance, enjoy it and get lost in the music , like my daughter and I did .. This is an improver level dance, but if you like the feel of the routine and want to make it more challenging there are a few extra tips on the tail end of the video..
